## **SPEND THE EVENING WITH SCIENCE AT CARNEGIE SCIENCE CENTER**

***SPACES STILL AVAILABLE FOR HALLOWEEN-THEMED SLEEPOVER AND JAMMIE JAM EVENTS***

**PITTSBURGH, October 5, 2017** – Families don't have to let the sun go down on science fun at Carnegie Science Center. During the month of October, the Science Center is hosting two events designed to extend the learning fun into the evening.

On **Saturday, Oct. 14**, from **5:30-9 pm**, the Science Center is hosting a **Jammie Jam**. Preschoolers and their grown-ups will have the chance to participate in hands-on science activities, view a live theater show, and engage in story time. Plus, enjoy a snack and have access to four floors of exhibits. All activities wrap up before bedtime and children are encouraged to wear their pajamas.

The Jammie Jam cost is \$15 per child and \$12 per adult. To register online visit [carnegiesciencecenter.org/programs/almost-overnighters](http://carnegiesciencecenter.org/programs/almost-overnighters) or call 412.237.1637 to register by phone.

On **Friday, October 20**, families can explore the science of Halloween at the **Halloween Bash** sleepover. Sleepover guests will learn about blood, identify ghoulishly gross mystery objects, and experiment with fog-filled "Boo" bubbles. The sleepover includes a late-night snack, themed activities, the opportunity to attend a planetarium or laser show, and a live theater show. Check-in for the sleepover begins at 6 pm and after spending the night in one of the museum's exhibit spaces, guests will enjoy a continental breakfast the following morning.

The cost for the sleepover is \$39 per person and includes admission to the museum the following day. Groups must have a minimum of one adult chaperone per eight children. To register, call 412.237.1637.

To learn more about these and other Carnegie Science Center programs, visit [CarnegieScienceCenter.org](http://CarnegieScienceCenter.org).

**About Carnegie Science Center**

Carnegie Science Center is dedicated to inspiring learning and curiosity by connecting science and technology with everyday life. By making science both relevant and fun, the Science Center's goal is to increase science literacy in the region and motivate young people to seek careers in science and technology. One of the four Carnegie Museums of Pittsburgh, the Science Center is Pittsburgh's premier science exploration destination, reaching more than 700,000 people annually through its hands-on exhibits, camps, classes, and off-site education programs.

**About Carnegie Museums of Pittsburgh**

Established in 1895 by Andrew Carnegie, Carnegie Museums of Pittsburgh is a collection of four distinctive museums: Carnegie Museum of Art, Carnegie Museum of Natural History, Carnegie Science Center, and The Andy Warhol Museum. In 2016, the museums reached more than 1.4 million people through exhibitions, educational programs, outreach activities, and special events.
